The asphalt contractor had an equipment failure so there was a delay in the started roadwork. The work will resume in the coming week. With the chip and seal additions from the Roads Committee the total is now \$128,800. It was originally bid out at \$97K, this anticipated increase was approved by the board at the July meeting. (This is the total for Civil Construction) The total for Associated will be \$26,154.87, \$2,800 was added by the roads committee to the original scope of work needed, this was also approved by the board at the July meeting. **This amounts to \$157,774.87 in total for roadwork this year.** Maps of work being performed are displayed at the kiosks. The survey will also be available online via Survey Monkey, as well as posting pdf on the POA website. Blank copies will also be available at the POA office. There will be one survey per household. **(Attachment F)** **(Action Item)**

### VII. **New Business**

- a. **Mary Sullivan** - Discussion for the board to extend the 2019-2020 snowplow contract. According to our By-Laws we will need to put bids out for the upcoming snowplow

year. The contractors can offer a 2 year contract but all contractors will need to bid the same way. The roads committee will be putting the bids out to contractors per the By-Laws.

- b. **Kim Rogers motioned to approve a fence variance request 901 Monongahela Drive, this motion was seconded by Cheryl Wash.** Kim shared a drawing of the proposed fence which is needed for the members dog. - d. **Toni Vella** presented a discussion regarding past dues. Since we never discussed postponing fees, Toni agreed that late fees need to be charged. Toni suggested that we have a directive written pertaining to how and when we charge late fees, etc., with reference to the place where it has been approved. Kim pointed out that the board acknowledges hardships that would prevent members from paying on time. Fees will be assessed as to follow the By-Laws.
- e. A concern was raised about an increase in cars at North Beach without appropriate LL car window decals. Our security does not have coverage to be on RCD property. Doug will meet with Bill Winebaugh to discuss how we can work together on this item. Jon suggested that we look into different gate systems moving forward. **(Action Item)**
- f. **Cheryl Wash** - A member suggested considering a safer route from East to West for walkers and golf carts. A bridge was suggested, which would be a wonderful thing to have happen. However, with the much needed lake dredging project pending, this would not be something that the RCD could entertain at this time. **(Action Item)**
- g. **Cheryl Wash** brought up the idea of a suggestion box or dedicated email for members to send thoughts and ideas to help improve ways to better our community on an ongoing basis. There is a box at the front gates that had been used in past years. Doug will investigate this. All agreed that this would be a positive thing for the membership. **(Action Item)**
- h. **Cheryl Wash** - The RCD requests permission to post signs regarding the upcoming referendum. Cheryl cited a passage in the Rules & Regulations Section 3, Item 3.04 SIGNS, which would indicate that this is allowed. It was agreed that the RCD signs are okay as this is temporary and it directly benefits the community via a public service announcement. The RCD will display tasteful signs that will be removed by the RCD after the November election. Doug will also check with Mike to confirm if any form of Political signs, other than those to be posted by the RCD during Federal and local Government elections, are okay to post or not.
- i. **Cheryl Wash** asked Jon to be sure that all of the keys that the board may need for any board business including those to gain access to the LCC supply closet, stating that they should to be housed in the POA building for board members to access when needed. This is a project that Jon has been working on. He is in the process of developing key procedures.
